

COVID-19 : Safe Practice

In order to keep you and other clients safe I am following all British Acupuncture Council guidelines for COVID-19 safe practice in therapy business.

There are no restrictions to clients for any particular health conditions but you must still think carefully if you are in the vulnerable category. All clients must still fulfil all the requirements in the COVID consent form (see link below) to be able to access treatment.

Before attending the clinic:

Please download and complete the COVID consent form and bring it with you.

Don't worry if you don't have a printer, I can provide a copy when you attend the clinic. In which case please bring a pen.

Prior to your consultation I will contact you regards a pre appointment risk assessment.

I cannot give you an appointment if you are experiencing:

- * High temperature
- * A new continuous cough
- * Loss of change to your sense of taste or smell

On arrival:

Please arrive on time. I no longer have a waiting area

I have a 15 minute gap between each client. As a result you won't meet any other clients and It allows me time to clean all surfaces and ventilate the room.

All clients must wear a face-mask [non-surgical masks can be worn] on entering and during the consultation.

I have supplies of alcoholic hand sanitiser gel at the entrance - please use this before entering and exiting.

Lets keep everyone safe and the virus at bay by observing the COVID safe guidance.

If you have any questions on any of the above please give me a call and I will be happy to chat with you.

Thank you for taking the time to read this. i am looking forward to meeting and working with you.
